**Subject: Annual Inspection Report  
Weedon Field Airport**

Dear Mayor Jaxon:

On June 24, 2011, personnel of the Alabama Department of Transportation, Aeronautics Bureau re-inspected Weedon Field Airport. The purpose of the re-inspection was to ascertain actions taken to correct the safety deficiencies noted in the November 10, 2010 inspection report.

The runway 18 approach/departure obstructions have been removed and as a result, the airport now meets the requirements for an operating license and the operating license for Weedon Field is reissued in full effect.

If you should have any questions concerning the inspection or corrective actions, please do not hesitate to contact the Aeronautics Bureau at (334) 242-6820.

Sincerely,

John C. Eagerton IV, D.P.A.  
Chief, Aeronautics Bureau
